

Hi Teams

We have received many inquiries about weather this weekend and have been closely monitoring the weather, as we do for every tournament we put on. Please see pertinent information below, please pass onto your parents.

PLEASE REFER TO THE US SOCCER HEAT GUIDELINES FOUND HERE (Davis is located in Category 3)

<https://static1.squarespace.com/static/57125d942eeb814000fb1ca5/t/5a1c4fdc8165f542d6d78d16/1511804893401/1609024+Heat+Guidelines.pdf>

1. Please make sure to put in the exact address of the Davis Legacy Soccer Complex to get an accurate reading. We do have a breeze that cools us down a few degrees, please see attached screen shot with the exact address of the fields. (I-phone temperatures are taking at the Davis airport or UC Davis which generally are much warmer than the complex.)
2. We will be following the US Soccer Heat guidelines (link above) that base activity levels on a matrix that measures heat AND humidity. High heat and low humidity, as currently forecast, mean all games are scheduled to proceed as planned, with appropriate protocols in place. Based on the *highest* current projections, we will be in the Orange category under the US Soccer guidelines. Rest assured, we will be actively monitoring this throughout the weekend.
3. Every match will have mandatory water break near the halfway point, meaning there will be no strenuous activity for any player lasting more than 12-13 minutes.
4. All fields will have shaded benches to protect from the sun
5. All fields will have water and Gatorade available near each bench supplied by tournament.
6. Professional training staff will be on site throughout the tournament to deal with any issues related to heat or other injuries. Training staff do have access to an onsite ice bath.

Daily Forecast
